**HANDBOOK  
for LAGs and FLAGs**

Monica Veronesi, FARNET Support Unit

[monica@farnet.eu](mailto:monica@farnet.eu)

## • Background

- CLLD now funded under all 4 ESIF => many **new LAGs with little or no experience of CLLD or evaluation**
- Evaluation now explicitly foreseen for all LAGs (CPR Art 33, 34, 35)

## • Inter-DG initiative

- ⇒ DG MARE (lead), DG AGRI, DG REGIO and DG EMPL
- ⇒ steering group involving members from the 4 DGs, ENRD & Evaluation Helpdesk
- ⇒ **FARNET and FAME Support Units joint production**

## • Objective

- ⇒ develop a **user-friendly handbook** to help LAGs (mono-funded and multi-funded) from all 4 funds to evaluate their work

# Process

- ✓ **Survey of FLAGs** (many of which LAGs) on their experience of evaluating their LDS
- ✓ **Review of evaluation practice** and existing guidance under **other programmes: LEADER**, Urbact, World Bank Community Driven Development...
- ✓ **In-depth case studies** of (F)LAG evaluation practice
  - Oberallgäu LAG, Bavaria, Germany
  - Marennes Oléron FLAG, France
  - Highlands and Moray LAG-FLAGs, Scotland, UK
  - SEPRA-ESKO LAG-FLAG, Finland
- ✓ Drafting the **handbook** based on experience and needs identified

## REMAINING

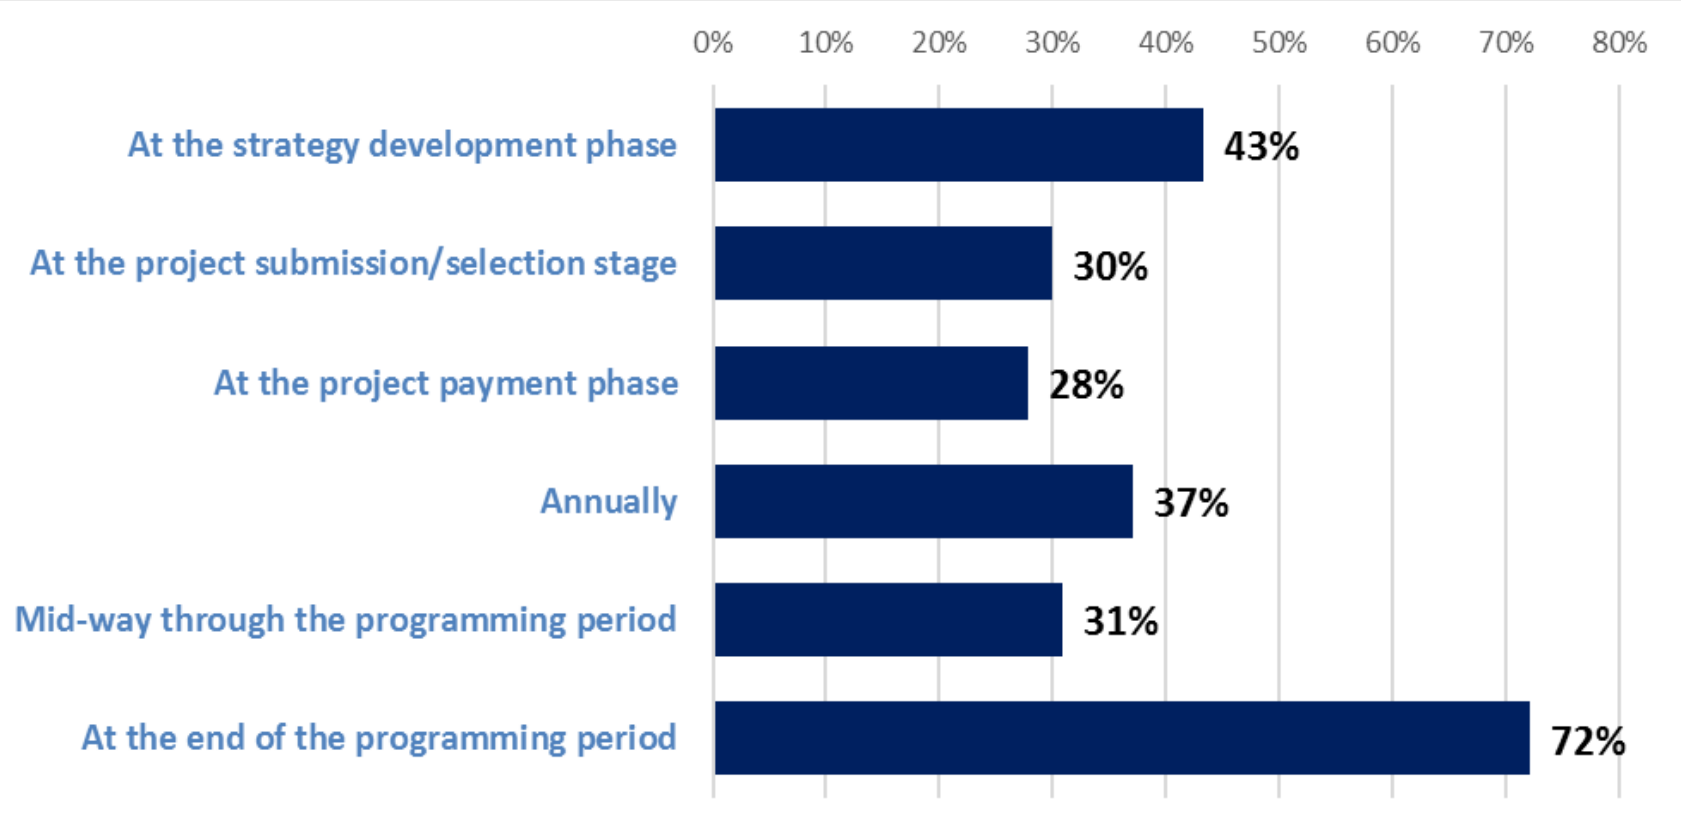

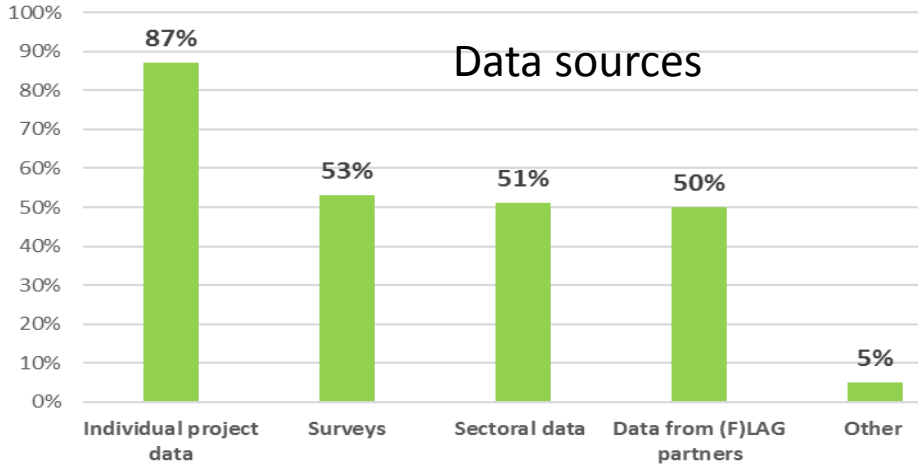

- Feedback from LEADER Sub-meeting and inter-DG Steering Group, March
- Integration of feedback and finalisation of handbook, April
- Layout, translation and online publication / dissemination, May

# FLAG survey results

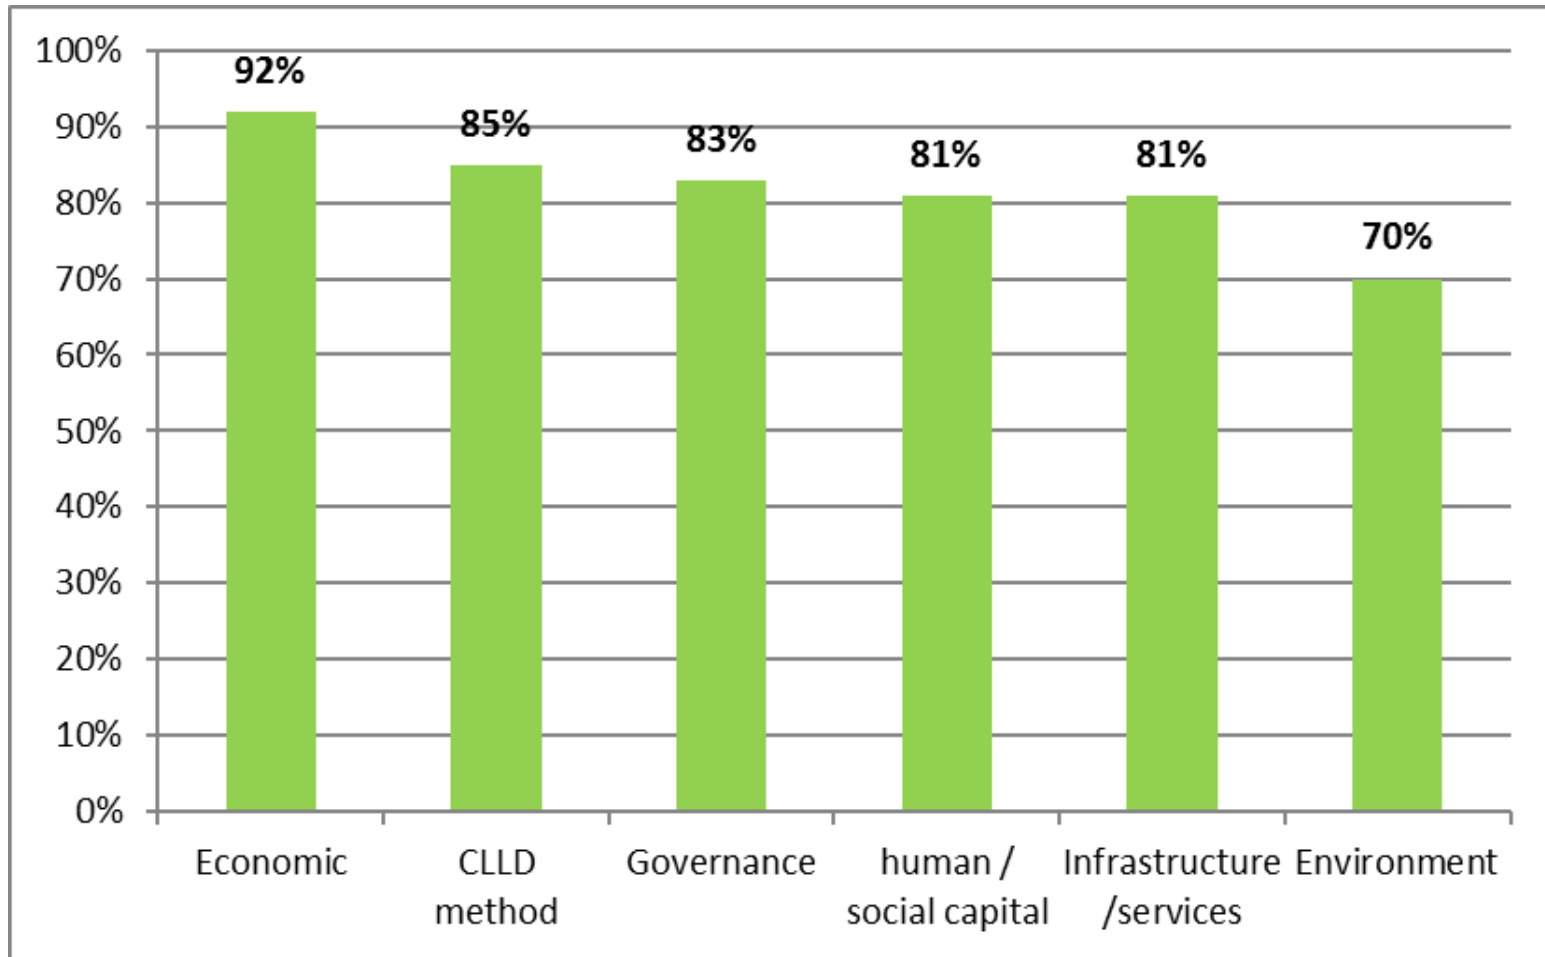

- 207 / 338 FLAGs responded (62%)
- **52% had never evaluated** their LDS or work  
=> Strong need for guidance / support
- Most data collection and evaluation actions at the **end of the period**
- Fairly **broad focus**
- Average of **€11,500** spent on FLAG evaluation\*

\* of those FLAGs/LAGs undertaking some kind of evaluation
