Celebrating Diversity

Towards a green economy

KENING fan 'e Greide

KONING van de Weide

WHY?

- 80 % of all godwits breed in NL
- 75% decline since 1960's;
 in recent years 8% per annum
- Current measures unsuccesful
- A future for the godwit is the symbol for biodiverse and nature including farming
- A matter of identity for the Netherlands landscape
- Elected national bird

What's the problem?

KING of the Meadows

NA.

Decline of biodivers agri-cultural landscapes

agri productie landschap

Netherlands: 990.000 hectares of grassland (dairy)

How?

Civil initiative/Community Lead

International contacts and coöperation

Agri – Culture

Green Economy

Interaction with RDP

Citizens participation
