

Using the CAP Strategic Plans to support Smart Villages

ENRD THEMATIC GROUP ON SMART VILLAGES:

7th meeting

Stefan Østergård Jensen

European Commission, DG Agriculture and Rural Development

F1 – Conception and consistency of rural development

Brussels, 6 March 2019

The future CAP proposal & Smart Villages

STATE OF PLAY OF THE PROPOSAL

- ***Legal proposals for the CAP post 2020 adopted by the Commission on 1 June 2018***
- ***Discussions as part of legislative procedure with the Council and the European Parliament ongoing***
- ***Proposal provides for a date of application as of 1 January 2021***

THE FUTURE CAP PRIORITIES AT A GLANCE

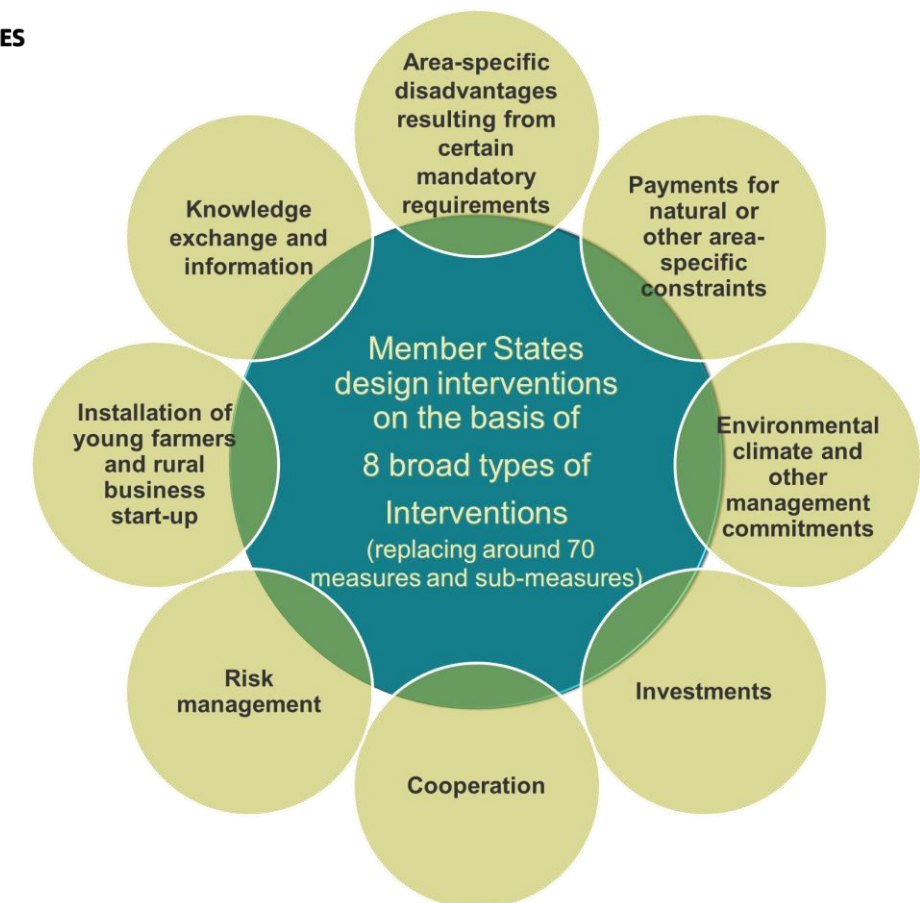

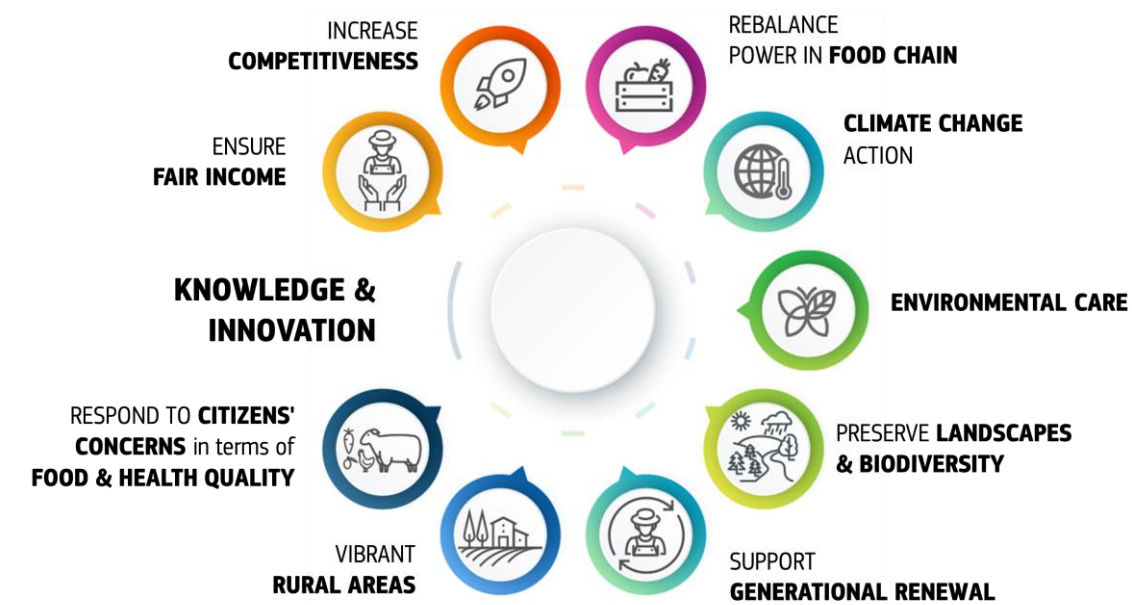

- ***The modernisation, simplification and result-orientation of the policy***
- ***Innovation and knowledge for tomorrow's agriculture***
- ***The resilience of European agriculture, with a more equitable & more efficient support through a better targeting***
- ***The strengthening of environmental and climate action***
- ***Growth and jobs in rural areas and encouraging generational renewal***
- ***The response to citizens' concerns on sustainable agricultural production***

SUPPORT THROUGH THE CAP STRATEGIC PLAN

Member States design interventions and set targets in CAP Strategic Plans

- *SWOT analysis*
- *Assessment of needs per CAP objective*
- *Intervention strategy*
- *Interventions contributing to one or more CAP objectives*

COMMON CAP OBJECTIVES

9 CAP Specific Objectives:

- **Economic Issues**
- **Environment and Climate**
- **Consumers and Rural Areas**

3 General Objectives:

- **Foster a Resilient Farm Sector**
- **Bolster Environment and Climate**
- **Strengthen Fabric in Rural Areas**

Cross-cutting:

- **Knowledge & Innovation**
- **Sustainable Development**
- **Simplification**

RURAL DEVELOPMENT TYPES OF INTERVENTIONS

Likely types of interventions for Smart Villages

- Cooperation (incl. LEADER)
- Knowledge exchange and information
- Investments
- ---

SMART VILLAGES IN THE FUTURE CAP

Smart Villages in the CAP proposal

- *Referred to in recital (45) on support for cooperation*
- *Targets to be set for Smart Villages, based on Result Indicator 33:*
"Rural population covered by a supported Smart Villages strategy"

CAP STRATEGIC PLAN & SMART VILLAGES

Innovation and digitalisation are important for smart villages

- *Strong focus on innovation and digitalisation – a strategy for use of digital technologies in agriculture and rural areas in the CAP Strategic Plan*

Smart Village strategies to complement existing initiatives

- *No EU level requirements defining Smart Village strategies – to be defined by MS (keep it simple!).*

Smart Villages are different across Europe – no one size fits all!

- *No EU level definition of a "Smart Village intervention"*
- *Flexibility for Member States to design simple, relevant interventions according to national/regional/local context*

Examples of ways of supporting Smart Villages

SELECTION OF CAP OBJECTIVES FOR SMART VILLAGES

Vibrant Rural Areas

Sustainable Resource Management

Climate Change Action

Rebalance Power in Food Chain

Support Generational Renewal

Increase Competitiveness

Preserve Landscapes & Biodiversity

Ensure viable Income

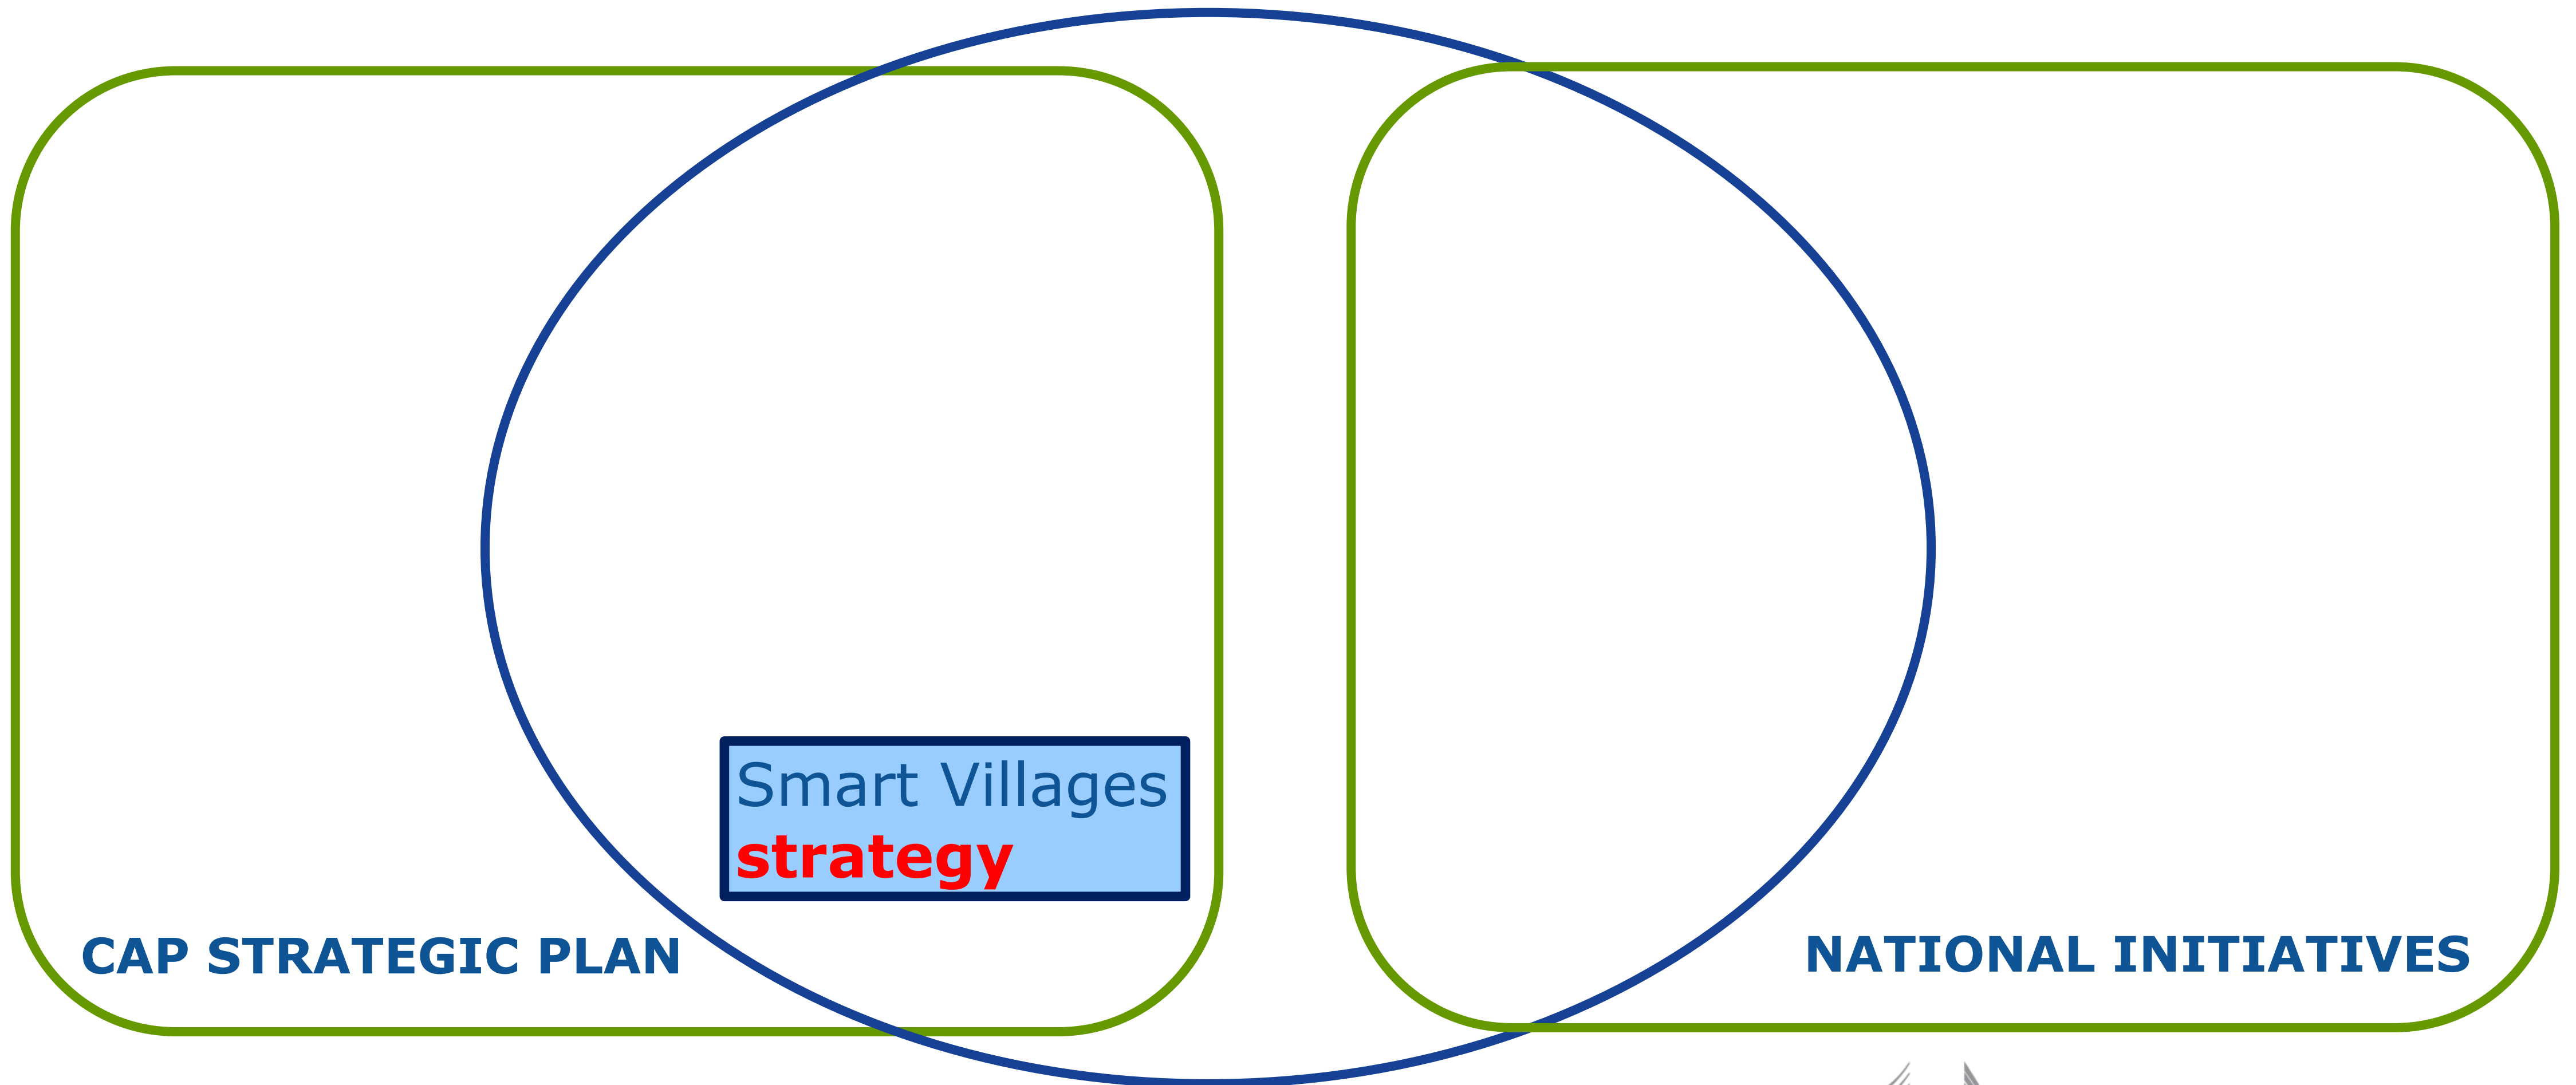

RESPOND TO CITIZENS' CONCERNS in terms of FOOD & HEALTH QUALITY

MS select and justify the contributions of their interventions to one or more CAP objectives according to needs
